

4 June

Kitty,

There is a very mild epidemic here. You do not need to worry. I'm just taking a bit longer to get over it than the 19- and 20-year-old parachutists, who are very resilient.

It is too exhausting to write — I'm taking a break. Sorry.

Think (*“Den” = “the” ...most likely “Denk” = “think”, otherwise the sentence makes no sense*) of your time in the hospital. The doctor and nurse are very kind.

Enjoy the cool evenings.

Hopefully, I can now return home soon.

(Found in decedent's estate)
